Maghull Neighbourhood Health Area

The Maghull Neighbourhood Health area is located in the North East of Sefton Borough. It consists of three wards: Park, Sudell and Molyneux.

Demographics

The Office of National Statistics (ONS) mid-year 2022(30 June) population estimates by ward were used to calculate the population totals for Maghull, Sefton, the North West (region) and England (national):

- Children aged 0–15 made up 15.8% of Maghull's population (equating to 6,001 residents), compared to 16.9% in Sefton overall, 18.7% in the North West and 18.5% in England.
- Those aged 16–64 accounted for 58.2% (22,025 residents) of Maghull residents, versus 59.7% in Sefton, 62.5% regionally and 62.9% nationally.
- The proportion of residents aged 65 and over was higher in Maghull (26.0% - 9,838 residents) than in the Borough as a whole (23.4%), the North West (18.8%) and England (18.6%).
- The proportion of residents aged 85 and over in Maghull was 4.2% (1,574 individuals), which is slightly higher than the Borough-wide rate of 3.4%, the regional rate of 2.4% and the national rate of 2.5%

Deprivation

The **Index of Multiple Deprivation (IMD)** is part of the UK Government's Indices of Deprivation and is used to measure and rank relative deprivation across small geographic areas known as Lower Super Output Areas (LSOAs, based on 2011 boundaries). It assesses disadvantage using 37 indicators grouped into seven domains. The most recent IMD was published by the Ministry of Housing, Communities & Local Government on 26 September 2019. In this report, topic-level averages have been calculated using best-fit LSOAs.

- Maghull's average IMD score (14.72) was considerably lower than Sefton's (27.04), the North West (27.91) and England (21.67) indicating lesser levels of deprivation.
 - Of the 25 Lower Super Output Areas (LSOAs) in Maghull, three ranked in the bottom 20% for deprivation nationally.

The **Income Deprivation Affecting Older People Index (IDAOPI)** is a subdomain of the Income Deprivation domain. It measures the proportion of people aged 60 and over experiencing income deprivation. This is based on the percentage of the population in this age group receiving income support, income-based Jobseeker's Allowance, Pension Credit, or Child Tax Credit (where both the claimant and their partner are aged 60 or over).

- The IDAOPI score in Maghull was 0.11, lower than the Borough average (0.17), regional average (0.19) and national average (0.17) demonstrating a lower level of income deprivation among older residents in Maghull compared to these comparator areas.
 - Two of the 25 LSOAs in Maghull fell into the 20% least deprived areas nationally.

The **Income Deprivation Affecting Children Index (IDACI)** is a subdomain of the Income Deprivation domain. It measures the proportion of children aged 0–15 living in income-deprived families (i.e. those receiving certain benefits or with low household income).

- As with the IMD and IDAOPI, the average IDACI score in Maghull (0.09) was notably lower than in Sefton (0.19), the North West (0.18), and England (0.16), indicating that income-related deprivation among children is less severe in Maghull than in the comparator areas.
 - Of the 25 LSOAs in Maghull, seven were among the 20% least deprived nationally, including two that ranked within the least deprived 10% nationally.

Relative low-income is defined as a family in low income Before Housing Costs (BHC) in the reference year. A family must have claimed Child Benefit and at least one other household benefit (Universal Credit, tax credits, or Housing Benefit) at any point in the year to be classed as low income in these statistics. Gross

income measure is Before Housing Costs (BHC) and includes contributions from earnings, state support and pensions.’ Department for Work and Pensions.

- In 2023/24, 12.8% of children aged 0–15 in Maghull lived in relative low-income families, compared to 22.3% in both Sefton and England, and 28.0% in the North West. This highlights markedly lower levels of child-related deprivation in Maghull than in the comparator areas.
- There were a total of 768 children living in low income families (relative) in Maghull in 2023/24.

Fuel poverty in England is measured using the Low Income Low Energy Efficiency (LILEE) indicator. There are three important elements in determining whether a household is fuel poor: household income, household energy requirements and fuel prices. According to the 2024 English sub-regional fuel poverty statistics (based on 2022 data):

- 9.3% of households in Maghull (approximately 1,495 households) were living in fuel poverty. This compares to 13.9% across Sefton, 14.1% in the North West, and 13.1% across England overall.

Benefit Claimants

The Department for Work and Pensions (DWP) publishes benefit claimant data across various categories and time intervals:

Universal Credit (UC) is a single monthly payment designed to support individuals and households with low income or those who are unemployed. It replaces six legacy benefits: Income-based Jobseeker’s Allowance, Income-related Employment and Support Allowance, Income Support, Working Tax Credit, Child Tax Credit, and Housing Benefit. As of August 2025:

- 2,557 residents in Maghull were claiming Universal Credit, representing 11.6% of the population aged 16–64. This is considerably lower than the averages for Sefton (21.3%), the North West (22.0%), and England (19.2%).
 - Among Maghull claimants, 65.3% were unemployed, compared to 69.2% across Sefton, 68.6% regionally, and 66.4% nationally.
- In May 2025, 13.6% of households in Maghull (approximately 2,156 households) were receiving Universal Credit, markedly lower than the rates in Sefton (24.7%), the North West (27.1%), and England (24.2%).
 - 5.9% of households in Maghull were claiming the housing element of Universal Credit, compared to 14.7% in Sefton, 16.3% in the North West, and 15.3% nationally.

Personal Independence Payment (PIP) is a non-means-tested benefit that supports individuals with long-term physical or mental health conditions or disabilities that impact daily living or mobility. As of July 2025:

- In Maghull, 1,991 residents aged 16 to 64 were claiming Personal Independence Payment (PIP), representing 9.0% of the population in that age group. This compares to the rates in Sefton (12.1%), the North West (10.3%), and England overall (8.0%).

Disability Living Allowance (DLA) is a benefit for individuals under 16 and those aged 65 and over who require support with personal care or mobility due to a disability. It consists of two components, care and mobility, which may be awarded separately or together. As of February 2025:

- 474 children in Maghull received Disability Living Allowance (DLA), representing approximately 7.9% of the local population aged 0–15. This rate is lower than the Borough (10.4%) and the regional (8.0%) averages, however it is slightly higher than the national average (7.2%).
- Among residents aged 65 and over, 474 individuals (4.8%) in Maghull received DLA payments. This compares to rates in Sefton and the North West (both 4.5%) and England (3.1%).

Attendance Allowance is a non-means-tested benefit for individuals of State Pension age and above who have a disability or health condition severe enough to require regular care or supervision. It is intended to help cover the additional costs associated with personal care needs. As of February 2025:

- 18.1% (1,779) of Maghull residents aged 65 and over were claiming Attendance Allowance—higher than the Borough (16.4%), the North West (15.1%), and England (13.7%). This suggests a greater prevalence of disability or long-term illness among older adults in Maghull compared to these comparator areas.

Pension Credits is a means-tested benefit for individuals over State Pension age who are on a low income. It provides additional financial support to help with living and housing costs. Pension Credit is distinct from the State Pension and is intended to ensure older people have a minimum guaranteed income. In February 2025:

- In Maghull, 839 residents aged 65 and over were claiming Pension Credit, representing 8.5% of that age group. This is notably lower than the levels seen in three comparator areas (Sefton – 13.0%, the North West – 12.6% and England – 11.1%).

Unemployment estimates reflect the number of individuals aged 16 and over who are claiming unemployment-related benefits. While this measure provides insight into benefit claimants primarily due to unemployment, it does not align with the International Labour Organisation (ILO) definition, which includes all individuals who are out of work, actively seeking employment, and available to start work. Despite this distinction, benefit claimant data remains a useful indicator for tracking unemployment trends across areas and over time. As of September 2025:

- Approximately 420 residents in Maghull were claiming unemployment-related benefits, representing 1.3% of the population aged 16 and over. Lower than Sefton (2.7%), the North West (3.3%) and England (3.2%).

Sefton's Emergency Limited Assistance Scheme (ELAS) provides short-term support to local residents aged 16 and over who are experiencing severe hardship, a disaster, or an emergency. The scheme is designed to meet one-off essential needs, rather than ongoing expenses. Support may include help with the cost of food, gas/electricity, and, in certain circumstances, furniture or domestic appliances. Between April 2024 and March 2025:

- In Maghull, there were 158 applications for ELAS support, equating to 5 applications per 1,000 residents aged 16 and over. This rate is considerably lower than the Sefton average of 36 applications per 1,000 residents.
 - Of those who applied in Maghull, 53.8% were approved, below the Sefton-wide approval rate of 64.2%.

Children Social Care

Sefton Children's Social Care (CSC) supports families and helps keep children and young people safe from harm by providing a range of services—from early help for families with children to protection for those at risk of abuse or neglect. Please note that some of the children supported by Sefton may not currently reside within the Borough.

Early Help provides support to children, young people, and families at the first signs of difficulty, aiming to prevent issues from escalating and to help them reach their full potential. As of 31 March 2025:

- In Maghull, 56 children and young people had an open Early Help plan, equating to a rate of 83 per 10,000 residents aged 0 to 17. Distinctly lower than the overall rate for Sefton, which stood at 135 per 10,000.

Child Exploitation - a multi-agency partnership approach is used to safeguard children and young people under 18 from sexual and criminal exploitation. This includes involvement from social workers, police officers, housing officers, education and healthcare professionals, charity staff, and others. Exploitation can

take various forms, and perpetrators may subject children to multiple types of abuse simultaneously. As of 31 March 2025, there were:

- 19 out of every 10,000 children aged between 10 and 17 residing in Maghull had an open Child Exploitation case, which is lower than the Borough-wide rate of 40 per 10,000.

A **Child in Need plan** is a formal, multi-agency support plan developed following a Children and Family Assessment. It is designed for children identified as needing coordinated input from education, health, and social care services to meet their needs and prevent significant harm. As of 31 March 2025, there were:

- A total of 65 children and young people aged 0 to 17 had a Child in Need plan in Maghull, representing a rate of 96 per 10,000 in that age group. This was considerably lower than the Borough-wide rate of 168 per 10,000.

A **Child Protection plan** is a formal, multi-agency strategy designed to safeguard a child identified as being at risk of significant harm. It involves assessing the likelihood of harm, identifying protective measures, reducing risk, and promoting the child's welfare. The plan also outlines specific actions for those involved and includes methods for monitoring and evaluating progress. As of 31 March 2025:

- Child Protection plan rates in Maghull stood at 21 per 10,000 residents under the age of 18, which was markedly lower than the Sefton-wide rate of 67 per 10,000. In total, 14 children and young people in Maghull had an active Child Protection Plan.

Cared for children are those whose birth parents are unable to provide ongoing care, and as a result, the local authority assumes responsibility for their wellbeing. These children may live with foster carers, in children's homes, or sometimes remain at home while receiving support from the local authority. Care arrangements can be either temporary or permanent, and each child is assigned a social worker to ensure their needs are met and their welfare is safeguarded. As of 31 March 2025, there were:

- There were 14 children and young people originally residing in Maghull that were cared for by the local authority. This equated to a rate of 21 per 10,000 residents aged 0 to 17, which was notably lower than the Borough-wide rate of 94 per 10,000.

Youth Justice Service (YJS) works with children and families who have had some involvement with law and order. To support children and families to prevent repeat incidences.

- As of 22 October 2025, 15 per 10,000 children and young people (aged 12–18) in Maghull were supported by the Youth Justice Service, markedly lower than the Borough-wide rate of 37 per 10,000.
- Between July 2024 and June 2025, Maghull had a YJS first time entrants rate of 13 per 10,000 residents aged 12 to 17, similar to the Sefton rate of 12 per 100,000 residents (aged 12 to 17).

Adult Social Care

Sefton received 13,722 unique client contacts to adult social care between November 2024 and October 2025.

- Residents of Maghull accounted for 11.3% (1,552) of the unique client contacts to Sefton Adult Social Care, equating to a rate of 50 contacts per 1,000 residents aged 18 and over, lower than the Sefton-wide rate of 60 per 1,000.

Community Safety

Crime and anti-social behaviour incident data is downloaded monthly from the Police.UK website. Between 1 August 2024 and 31 July 2025, the following were recorded:

- Merseyside Police recorded 1,911 crimes in Maghull, equating to 50 per 1,000 residents, considerably lower than the Sefton-wide rate of 77 per 1,000.

- 47.1% (900) of crimes reported were violent or sexual offences, representing a rate of 24 per 1,000 residents, compared to 36 per 1,000 across the Borough.
- Reports of anti-social behaviour were similar in Maghull (10 incidents per 1,000 residents), compared to the Borough (9 per 1,000 residents). There was a total of 360 reports of anti-social behaviour in the Maghull area during the time period.

Deliberate fires data is received monthly from Merseyside Fire and Rescue (MFRAS). 'Fires where the motive for the fire was 'thought to be' or 'suspected to be' deliberate. This includes fires to an individual's own property, others' property or property of an unknown owner. Despite deliberate fire records including arson, deliberate fires are not the same as arson. Arson is defined under the Criminal Damage Act of 1971 as 'an act of attempting to destroy or damage property, and/or in doing so, to endanger life' Ministry of Housing, Communities & Local Government. Between 1 August 2024 and 31 July 2025:

- There were 35 deliberate fires reported in Maghull, equating to a rate of 9 deliberate fires per 100,000 residents, lower than the 14 per 100,000 residents seen in Sefton.

Sefton Street Services receives reports of **environmental issues**, such as fly-tipping, street sweeping, and dog fouling, via online platforms and Sefton's contact centre. Between 1 August 2024 and 31 July 2025, the following were reported:

- Sefton Council received 522 reports of environmental issues from the Maghull area, representing 14 reports per 1,000 residents, notably lower than the Sefton-wide rate of 27 per 1,000.
 - Fly-tipping accounted for 33.5% of all environmental reports in Maghull, a rate of 5 per 1,000 residents, lower than the Borough-wide rate of 14 per 1,000.

Housing

The Census is conducted every 10 years by the Office for National Statistics (ONS) to provide a detailed snapshot of the population and household composition across England and Wales. Census 2021 took place on 21 March 2021. As part of the survey, participants were asked about the tenure of the property they lived in.

- In Maghull, 13,419 households were owner-occupied, accounting for 84.5% of all households, this is considerably higher than the averages for Sefton (66.6%), the North West (62.3%), and England (61.3%).
- In contrast, 14.9% of households (2,373) were rented, markedly lower than the rates seen across Sefton (32.7%), the North West (36.9%), and England (37.6%).
 - Of the rented households, 37.0% were let by registered social landlords, lower than the proportions in Sefton (44.1%), the North West (47.8%), and England (45.5%).
 - Meanwhile, 63.0% of rented households were privately rented, higher than the Borough-wide rate of 55.9%, the regional rate of 52.2%, and the national rate of 54.5%.

Students

The School Census is a mandatory data collection carried out each term, gathering detailed information on pupils and schools. For Sefton, the most recent available School Census data is from January 2025 and covers all students attending maintained schools or academies within the Borough. This report includes data on primary, secondary, special and post-16 students only. Please note that some pupils may live outside the Sefton boundary but attend a school or academy located within it.

- In Maghull, 4,683 pupils were attending a Sefton maintained school or academy (including primary, secondary, special, and post-16 settings), accounting for 13.3% of the total student population across Sefton maintained schools and academies.

- Primary school pupils (Reception to Year 6) made up 55.8% (2,614 pupils) of Maghull's total, similar to the Sefton average of 55.7%.
- Secondary school pupils (Years 7 to 11) accounted for 38.2% (1,788 pupils), slightly lower than the Borough average of 40.6%.
- Post-16 students (Years 12 to 14) represented a larger proportion in Maghull at 6.0% (281 pupils), compared to 3.7% across Sefton.

'Special educational needs and disabilities (SEND) can affect a child or young person's ability to learn. They can affect their: behaviour or ability to socialise, for example they struggle to make friends / reading and writing, for example because they have dyslexia / ability to understand things / concentration levels, for example because they have attention deficit hyperactivity disorder (ADHD) / physical ability' Department of Education

- 180 pupils in Maghull had an Education, Health and Care Plan (EHCP), representing 3.8% of all students in the area, lower than the Borough average of 6.3%.
- 11.9% of Maghull pupils (557 students) were receiving School SEN Support, compared to 16.2% across Sefton.

'Free school meals are available to pupils whose parents or guardians receive one or more qualifying benefits. These include means-tested Universal Credit, Income Support, income-based Jobseeker's Allowance, income-related Employment and Support Allowance, support under Part VI of the Immigration and Asylum Act 1999, the guaranteed element of Pension Credit, means-tested Child Tax Credit, or Working Tax Credit.' Department of Education

- 12.3% of students (576 pupils) living in Maghull and attending Sefton-maintained schools or academies, from Reception to Year 14, received free school meals. This is markedly lower than the Sefton average of 27.3%.

There are three types of Early Years (EY) provision in Sefton; Childminders, Private, Voluntary, and Independent (PVI) settings, School/Maintained Nursery Schools. As of October 2025, the distribution of these settings are as follows:

- In Maghull there were a total of 34 EY setting; 15 child minders, 10 PVIs and nine School/Maintained Nursery Schools.

'Elective home education is a term used to describe a choice by parents to provide education for their children at home or in some other way they desire, instead of sending them to school full-time.' Department of Education As of the 22 October 2025:

- A total of 55 children were electively home educated in Maghull, representing a rate of 12 per 1,000 residents aged 5–16. This is below the Sefton average of 14 per 1,000.

Health

'Life expectancy at birth reflects the overall mortality level of a population. It summarizes the mortality pattern that prevails across all age groups - children and adolescents, adults and the elderly.' World Health Organization (WHO). The Life Expectancy at Birth 2022-2024 shows:

- Female life expectancy in Maghull is 84.7 years, significantly higher than the Sefton average of 81.5 years.
- Similarly, males in Maghull have a significantly higher life expectancy of 80.8 years, compared to 78.5 years across Sefton.

Low birth weight, defined by the World Health Organization as less than 2,500 grams (5.5 pounds), may result from prematurity, fetal growth restriction, or both. It is a major public health concern linked to higher risks of infant mortality, developmental delays, and long-term health issues.

- According to the 2024 birth registration data, 5.8% of births in Maghull were classified as low birth weight, slightly lower than the Sefton average of 6.8%, this difference was not statistically significant.

The National Oral Health Survey, conducted every two years, assesses the dental health of five-year-olds. Due to small sample sizes the ability to detect statistically significant differences below local authority level is limited. The most recent survey, carried out in 2023/24, reported the following findings:

- 28.1% of children aged five living in Maghull included in the survey had visually obvious tooth decay, lower than the 33.3% seen in the Borough (but not significantly lower).

The National Child Measurement Programme (NCMP) is an annual initiative that records the height and weight of children in Reception (ages 4–5) and Year 6 (ages 10–11) to monitor overweight and obesity levels in primary schools. Aggregated data from 2021/22 to 2023/24 revealed the following trends:

- In Maghull, 10.0% of Reception-aged children were classified as obese, a slightly lower proportion than Sefton's average of 10.9%, though the difference was not statistically significant.
- 23.8% of reception age children in Maghull were classified as overweight or obese, again lower than Sefton 24.9%, though the difference was not statistically significant.
- Among Year 6 children in Maghull, 19.2% were classified as obese, significantly lower than the Sefton Borough average of 23.8%.
- The proportion of Year 6 pupils classified as overweight or obese in Maghull was 34.3%, lower than the Sefton average 37.6%, however this difference was not statistically significant.

Injuries are a leading cause of hospitalisation and represent a major cause of premature mortality for children and young people. They are also a source of long term health issues, including mental health related to experience(s). *Public Health Fingertips* Crude rate of hospital admissions caused by unintentional and deliberate injuries between 2016 and 2020 show:

- Maghull recorded a hospital admission rate of 104.9 per 100,000 for under-15s due to unintentional and deliberate injuries, this was slightly higher than Sefton's rate of 103.7, however the difference was not statistically significant.
- Hospital admission rates for unintentional and deliberate injuries among 15–24-year-olds were significantly lower in Maghull (164.8 per 100,000) compared to Sefton overall (215.4 per 100,000).

The Combined Intelligence for Population Health Action (CIPHA) uses GP register data, which includes information on patients' smoking status. As of 25 September 2025, the following figures were recorded:

- 8.4% of patients aged 15 and over who live in Maghull and are registered with a GP are current smokers, significantly lower than the Borough average of 13.4%.

The Census is conducted every 10 years by the Office for National Statistics (ONS) to provide a detailed snapshot of the population and household composition across England and Wales. Census 2021 took place on 21 March 2021. As part of the survey, participants were asked about their health:

- 5.6% (2,100) of Maghull residents reported poor or very poor health, compared to rates in Sefton (7.0%), the North West (6.2%), and England (5.2%).
- 19.0% (7,128) of residents identified as disabled under the Equality Act, in comparison to Sefton (21.9%), the North West (19.4%), and England (17.3%).

- 9.0% (3,378) of residents reported a disability under the Equality Act that limited their daily activities a lot. This compares to rates in Sefton (10.7%), the North West (8.9%), and England (7.3%).
